INDEX TO VOLUME XLII

[NOTE.—In this index the titles of principal papers and headings of departments, as *Discussions*, are in italics.]

Abrasives, Texas (review), 501
Abstracts—
Applications of the concept of zonal structure in pegmatites to prospecting for feldspar (Cameron), 420
Applied geology at the Magma mine, Superior, Arizona (Michell), 416
Bedding replacement fluorspar deposits of Spar Valley, Eagle Mountains, Texas (Gillerman), 416
Beryl resources of Connecticut (Cameron and Shainin), 353
Coal in Japan colliery operations and methods of mining (Cammack), 422
Cobalt mineralization in the Blackbird district, Lemhi County, Idaho (Anderson), 22
Eastern part (Malartic to Pershing) of the Kirkland-Val d'Or break (Norman), 412
Eolian dam near Tucumcari, New Mexico (Dobrovolny and Townsend), 492
Factors in the deposition of hydrothermal ores (Hulin), 413
Genesis of intrusive magnetite and related ores (Shand), 634
Geology and ground-water resources of Puerto Rico (McGuinness), 409, 563
Geology of the Batuco lead-zinc deposits in central Chile (McAllister and Shainin), 417
Geology of the Colquiri tin mine, Bolivia (Campbell), 1
Geology of the Red Rose tungsten mine, Hazelton, British Columbia (Stevenson), 434
Graphite deposits of southern Korea (Overstreet), 424
Ground-water conditions and problems in the upper Mississippi River embayment (Schneider), 626
Ground-water investigations in the Iron River mining district, Michigan (Theis and Stuart), 410
Hydroelectric power development in Japan (Bell and Williams), 424
Hydrothermal alteration in the "Porphyry Copper" deposits (Schwartz), 319
Hydrothermal gypsum in Japan (Jenke), 426
Iron and steel industry of the former Japanese Empire (Johnston), 427
Abstracts—Continued
Location of Bull Shoals Dam (Roberts), 410
Low-temperature carbonization of coal in Japan (Reid), 428
Magnesite deposit at Gabbs, Nevada (Vitaliano and Callaghan), 420
Metalliferous geochemical zones of Australia (Hills), 478
Metallurgical interpretation of ore genesis—An alternative to the hydrothermal theory (Brown), 413
Metasomatic processes (Holser), 384
Methods and objectives in engineering geology in the Tennessee Valley Authority (Moneymaker), 411
Mineral investigations in TVA reservoirs (Moneymaker), 411
Mining and geology studies in Japan (Singewald), 421
Ongjin-Haeju deposit, southern Korea (Klepper), 422
Ore deposits and geologic age (Miholić), 713
Ore deposits of the eastern Andes of Bolivia. The Cordillera Real (Turneaure and Welker), 595
Origin of gold placers in northern Tierra del Fuego (Shainin), 418
Original Sixteen to One gold-quartz vein, Alleghany, California (Cooke), 211
Pennsylvanian clay horizons of western Maryland (Waage), 420
Petrographic features of sheet muscovite in southeastern United States as related to commercial classifications (Jahns), 418
Phosphate deposits of the eastern province, Uganda (Davies), 137
Phosphate deposits of the former Japanese islands (Rodgers), 425
Pyrite geo-thermometer (Smith), 515
Regional structural features of the Yellowknife area (Campbell), 687
Research on geochemical prospecting by the Geological Survey (Hawkes), 414
Resumé of the mineral industry in southern Korea (Gallagher), 427
Sangdong tungsten deposit, southern Korea (Klepper), 465
Scheelite in the Boulder district, Colorado (Tweto), 47

Abstracts—Continued
Search for concealed deposits—A reorientation of philosophy (Lasky), 415
Search for ore deposits—Geologic methods and concepts (Chace), 414
Shallow, high-temperature pegmatites, Grant County, New Mexico (Kelley and Branson), 699
Some physical characteristics of certain favorable and unfavorable ore horizons (Rove), 57, 161
Some pipe deposits of eastern Australia (Blanchard), 265
Some solutional features of the limestone near Lexington, Kentucky (Hamilton), 409
Structural control and wallrock alteration at the Wilbert mine, Dome district, Butte County, Idaho (Anderson), 368, 415
Structural control of fluorspar deposits in the Zuni Mountains, New Mexico (Goddard), 417
Structural principles controlling the occurrence of ore in the Kolar gold field (Bichan), 93
Structure and ore deposits of the Kirkland Lake, Noranda, Val d'Or belt, Ontario and Quebec, 428; (Wilson), 412
(western or Ontario section) (Thomson), 412
Studies of mineral sulpho-salts: XI—Wittichenite (klaprothite) (Nuffield), 147
Sulphur deposits of Japan (Chidester), 425
Talc deposits of the Gouverneur district, New York (Engel), 419
Temperature of crystallization of a fluorite crystal from Luna County, New Mexico (Twenhofel), 78
Tin-tungsten deposit in Egypt (Amin), 637
Transport and deposition of the nonsulphide vein materials. II. Cassiterite (Smith), 251
Tungsten in Japan and Korea (Klepper), 421
Ubiquity of gold values and their relation to zones of tensional dilation (Bichan), 396
Yang-chia-chang-tzu molybdenite district, Manchuria (Hendricks), 426
Zinc content of plants on the Friedensville zinc slime ponds in relation to biogeochemical prospecting (Robinson, Lakin, and Reichen), 572
Zoned magnetite-bearing pegmatites in central Chile (Shainin), 417
Adair, G. S., on membrane equilibrium (review), 749
Age, Ore deposits and geologic (Miholić), 713
Aggregates, research, 741
